

# MERCER COUNTY WILDLIFE CENTER & WILDLIFE CENTER FRIENDS

The goal of the Mercer County Wildlife Center is to protect the future of our native wildlife species through education, rehabilitation and release. The Center cares for injured, ill, and displaced wildlife, providing medical treatment and a temporary refuge prior to release back into an appropriate wild habitat. We are state and federally licensed facility- accepting birds, mammals and reptiles from the central New Jersey area. All services provided by the Center are free of charge to those who bring animals in need of care.

Wildlife Center Friends, Inc. is the nonprofit partner of Mercer County Wildlife Center. The mission of Wildlife Center Friends is to support efforts to rescue and rehabilitate native wildlife and their habitats through collaborative partnerships and education. Donations are greatly needed and appreciated and fully tax deductible.
